***Allowable Subject Matter***

1. Claims 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose a hybrid system with two engines where the output shafts are able to be coupled by a device such as a clutch. The closest prior art is JP 11-311137, which discloses a two engine hybrid powertrain. The output shafts of the two engines are not able to be coupled. Moore et al., US2004/0138023, discloses a powertrain that includes two engines that can have their output shafts coupled selectively. Moore et al. is not a hybrid powertrain. The combination of Moore et al. with JP 11-311137 would not be an obvious one since the power output of the engines in JP11-311137 are already transferred to the output shaft of the powertrain through other structures so there would be no need to "tie" the engine output shafts together as is the current invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRIAN J. BROADHEAD whose telephone number is (571)272-6957. The examiner can normally be reached on Monday through Thursday or Tuesday through Friday.
